

ARPEGE: original 1 s models and same-location measured references  
Fixed seed 42001; one fixed Flow draw; examples selected before inference

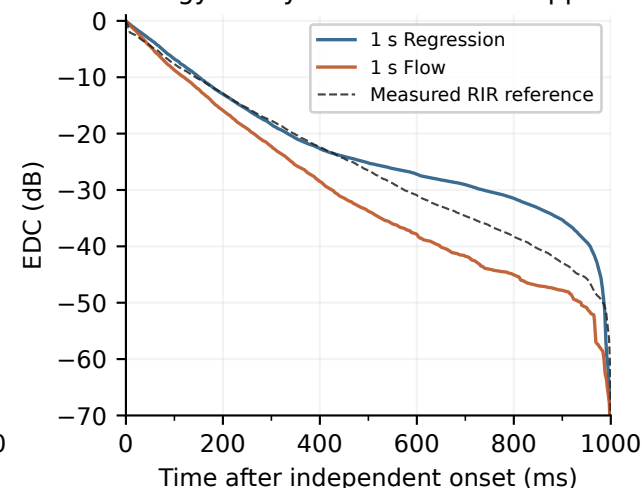

Room 1, position 1, EM64  
Single-clap observation

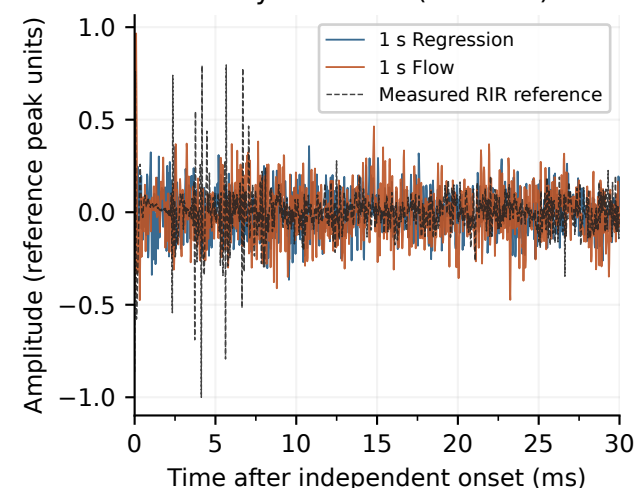

RIR: measured reference and predictions

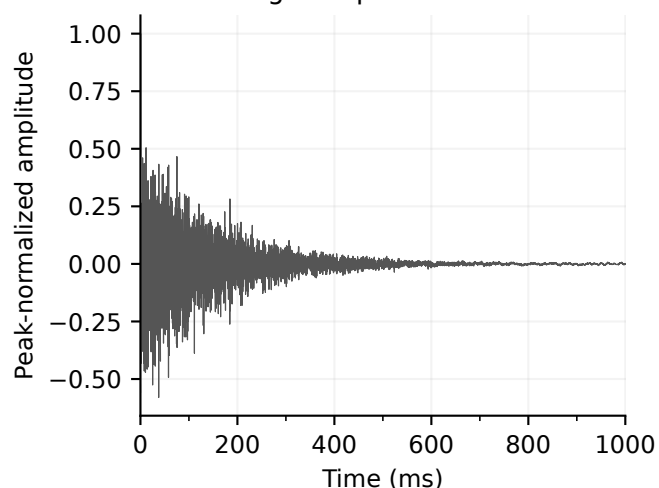

Energy decay over measured support

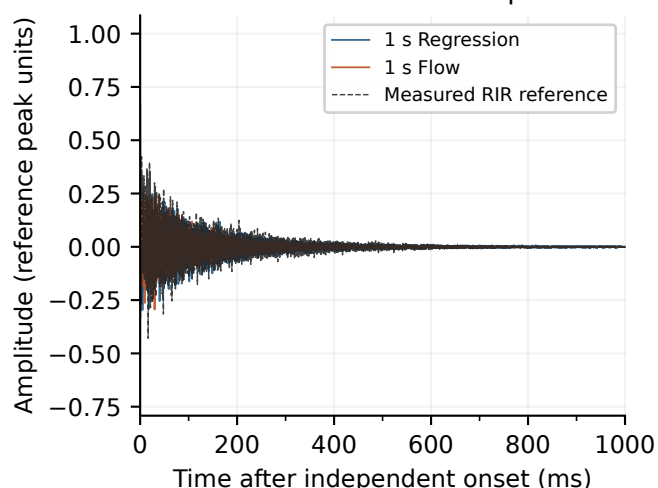

Early RIR detail (0-30 ms)

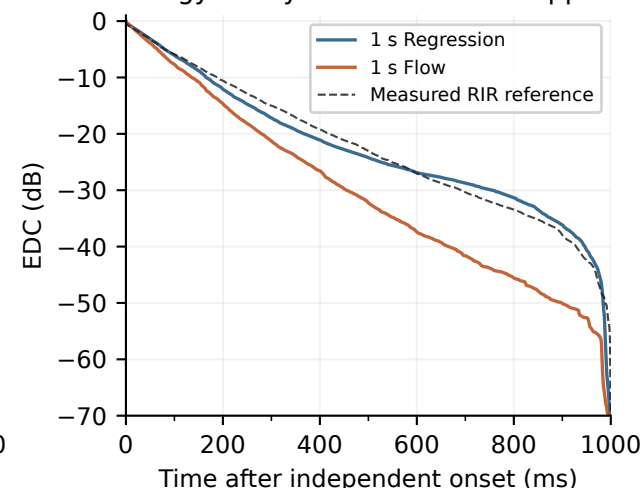

Room 4, position 6, EM32  
Single-clap observation

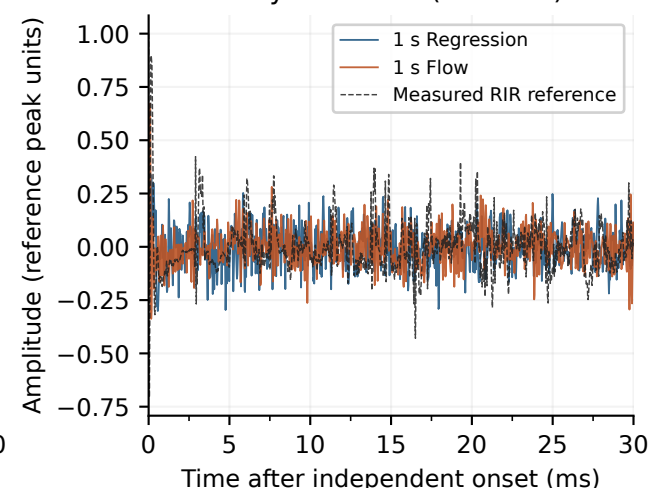

RIR: measured reference and predictions

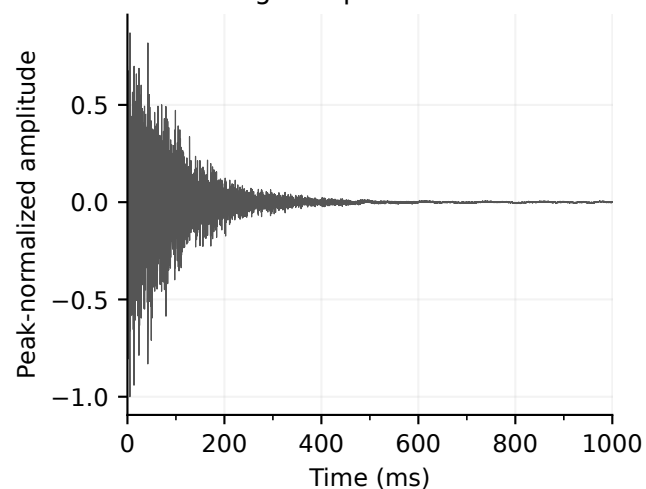

Energy decay over measured support

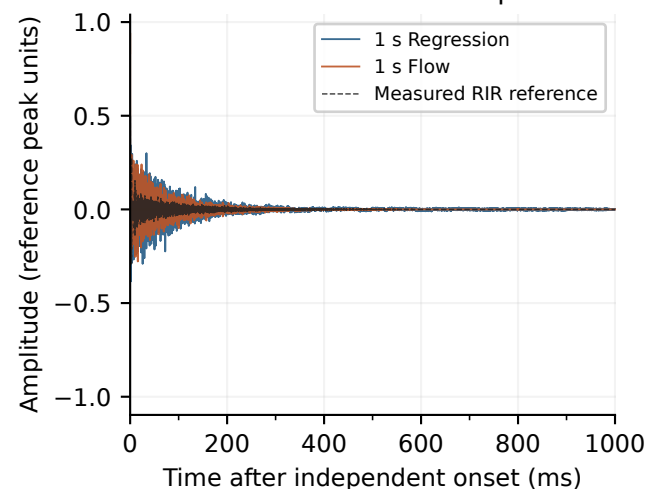

Early RIR detail (0-30 ms)

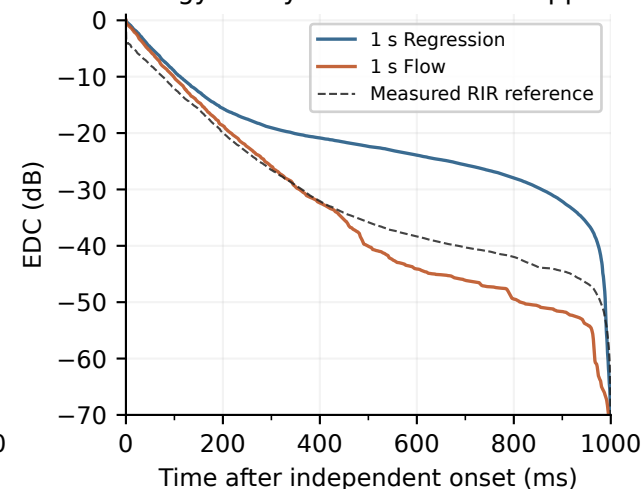

Room 6, position 4, EM64  
Single-clap observation

RIR: measured reference and predictions

Energy decay over measured support

Early RIR detail (0-30 ms)
